

I am a self-taught, young and passionate Web Developer based in Israel.

Work Experience

Moonshot Marketing

Web Developer

Tel Aviv, Israel
2016 - Current

Developed responsive landing pages and websites from mockups and PSD, both Front-End and Back-End, by using technologies and languages such as HTML5, CSS3, JS (with jQuery), and PHP, while integrating with Git and using the AWS products.

Self-Employed

Freelance Web Developer

Kiryat Gat, Israel
2015 - Current

Developed and designed responsive websites and web applications for clients and companies, using languages such as HTML5, CSS3, JS (with jQuery) on the client side, and PHP on the server side.
Maintained websites and servers for clients and companies.

Education

Kfar Silver Regional High School

Computer Science and Biology major

Hof Ashkelon, Israel
2009 - 2016

Finished high school with 5 units of English, C.S and Biology, and 4 units of math.

Skills

- HTML, CSS, JS (with the jQuery library), PHP, Git and the LAMP stack.
- Rich experience in working with the Amazon Web Services such as S3, EC2, with the ability of deploying and managing instances.
- Broad knowledge in using the Adobe Creative Suite.
